PROFESSIONAL SUMMARY

Data Analyst with 2+ years of professional software development experience and hands-on skills in SQL, Power BI, Python, and Excel. Microsoft Certified: Power BI Data Analyst Associate (PL-300), with practical experience in data cleaning, exploratory data analysis (EDA), dashboard development, and KPI/business reporting. Combines a strong technical foundation with a business-focused approach to data analysis and reporting.

TECHNICAL SKILLS

Data Analysis: SQL, Python, Pandas, NumPy, EDA, Data Cleaning, Data Wrangling, Data Validation

SQL: Joins, Aggregations, Filtering, GROUP BY, CTEs, Window Functions, Business Queries

BI & Visualization: Power BI, DAX, Power Query, Data Visualization, Dashboard Development, KPI Reporting

Statistics: Descriptive Statistics, Probability, Correlation, Regression, Hypothesis Testing, Outlier Detection

Databases & Excel: PostgreSQL, MySQL, Snowflake| Pivot Tables, XLOOKUP/VLOOKUP, INDEX-MATCH, SUMIFS/COUNTIFS

PROFESSIONAL EXPERIENCE

Data Analyst Intern | Rubixe – AI Solutions Company Jun 2026 – Oct 2026

- Analyzed datasets for Market Analysis and Customer Satisfaction (CSAT) projects using SQL, Power BI, and Python.
- Performed data cleaning, validation, transformation, and exploratory data analysis (EDA) to prepare data for business reporting.
- Developed interactive Power BI dashboards and reports to track market trends, customer satisfaction metrics, and key performance indicators (KPIs).
- Use SQL, Excel, and Python to prepare, evaluate, and summarize data for project-level business analysis.

Junior Software Developer | POV Bharat Jul 2023 – Dec 2025

- Developed and maintained software solutions based on business and technical requirements, contributing to application development and system improvements.
- Worked on ETL processes, data modeling, troubleshooting, and data integrity.

SELECTED PROJECTS

Market Analysis | SQL, Power BI | GitHub

- Examined 1M+ orders to identify purchasing patterns, product performance, reorder behavior, and order trends.
- Used SQL joins, filtering, aggregations, GROUP BY and business queries across 20 analytical questions.
- Built a Power BI dashboard covering 1.05M+ orders and 63.1K users, including reorder rate, top products, and order trends.

Customer Shopping Trend Analysis | Python, SQL, PostgreSQL, Power BI | GitHub

- Analyzed 3,900+ customer records to identify purchasing patterns, revenue trends, customer segments, and behavior.
- Developed PostgreSQL queries using joins and aggregations to examine products, loyalty, discounts, seasons, and sales channels.
- Created an interactive Power BI dashboard with 10+ KPI visualizations for customer, and business performance.

Healthcare Data Analysis | MySQL | GitHub

- Explored healthcare data using 34 business queries covering patients, admissions, doctors, diagnoses and geographic trends.
- Applied joins, aggregations, CTEs, window functions, CASE statements, and date/string functions for reporting analysis.

Customer Service Performance Dashboard | Power BI, DAX | GitHub

- Designed a Power BI dashboard to analyze CSAT, communication channels, response time, regional performance, sentiment, and service trends.

CERTIFICATIONS

Microsoft Certified: Power BI Data Analyst Associate (PL-300) — Microsoft
Certified Data Analyst — NASSCOM
SQL Intermediate — HackerRank
Microsoft Excel Certification — SkillCourse
Prompt Engineering — Great Learning
Training For Snowflake — Simplilearn

EDUCATION

Master of Computer Applications (MCA) | Savitribai Phule Pune University Oct 2021 – Jun 2023
